

Fundamentals of Aviculture Level I and II

Self paced, online courses designed for the busy student. Start and stop at your convenience. FOA Level I Course provides a foundation for the emerging science of aviculture. It is presented in nine chapters ranging from anatomy and physiology to avian behavior; from laws and regulations affecting aviculture to how to provide proper housing and prevent illness of birds in our care; and much, much more.

FOA Level II Course is offered in fifteen chapters ranging from conservation and research; from basic avian genetics to breeding stimuli; from incubation to hand-rearing; from non-parrot studies to basic microbiology; and more.

RACE Continuing Education Credits for FOA Courses

The Fundamentals of Aviculture Level I on-line course was reviewed and approved by the AAVSB RACE program for 12 units of continuing education. It is available to ALL AFA Members. Level II is being reviewed now and will eventually provide 15 CEU units.

Please contact the AAVSB RACE program at race@aaavsb.org should you have any comments or concerns regarding these programs' validity or relevancy to the veterinary profession.
